PROFESSIONAL SUMMARY

Full-Stack Developer with 2 years of hands-on experience building, deploying, and maintaining production web, mobile, and e-commerce applications. Experienced with React.js, Next.js, TypeScript, Node.js, Express.js, FastAPI, Python, PHP/OpenCart, Flutter, REST APIs, MySQL, PostgreSQL, MongoDB, Docker, and cloud infrastructure. Currently responsible for production Arabic e-commerce platforms serving customers across Saudi Arabia, including storefront development, payment and shipping integrations, mobile development, performance optimization, and server administration.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Material UI (MUI), Framer Motion, HTML5, CSS3, responsive UI, Arabic RTL

Backend: Node.js, Express.js, FastAPI, Python, PHP, OpenCart 3, REST APIs, authentication, role-based access control (RBAC), third-party API integration

Mobile & Databases: Flutter, Dart, MongoDB, PostgreSQL, MySQL, MariaDB, NeonDB, API integration

Cloud & DevOps: AWS EC2, Oracle Cloud, Vercel, Docker, GitHub Actions, Apache, Nginx, Linux, Git, CI/CD

E-commerce: Journal 3, checkout customization, payment gateways, Apple Pay, shipping integrations, analytics, data migration, production troubleshooting

PROFESSIONAL EXPERIENCE

Full-Stack Developer | RoadBiker | Apr 2026 - Present | Hail, Saudi Arabia

- Own day-to-day development and production engineering for **road-biker.com** and **ilm-roadbiker.com**, Arabic motorcycle e-commerce storefronts serving customers across Saudi Arabia.
- Rebuilt and customized OpenCart 3 and Journal 3 storefronts using PHP 8.1, MySQL, responsive RTL layouts, SEO-friendly pages, and mobile-first commerce flows.
- Integrated and supported payment gateways, Apple Pay, installment services, shipping, analytics, and abandoned-cart workflows while resolving checkout, JavaScript, API, and server-side issues.
- Migrated products, categories, images, customers, orders, and SEO URLs into a fresh deployment while preserving live commerce operations.
- Built the companion Flutter shopping application and improved production reliability through Apache/PHP-FPM configuration, caching, database troubleshooting, asset optimization, and cloud-server administration.

Full-Stack Developer | Centangle Interactive | Feb 2025 - Oct 2025 | Islamabad, Pakistan

- Built and maintained full-stack applications with React.js, Next.js, Node.js, MongoDB, and REST APIs in an Agile, cross-functional development environment.
- Delivered frontend and backend features, debugged production issues, tested integrations, and participated in code reviews and technical planning.
- Applied SSR/SSG, reusable component architecture, API integration, and performance-focused React patterns to improve maintainability and user experience.

Web Developer | RobAiotics Corp. | Jan 2025 - Apr 2025 | Remote - United States

- Developed responsive production web features using React.js, Next.js, and Node.js, integrated APIs, and optimized frontend performance.
- Collaborated remotely with cross-functional stakeholders to troubleshoot issues and deliver user-facing improvements.

SELECTED PROJECTS

RoadBiker | road-biker.com | OpenCart 3, Journal 3, PHP, MySQL, Flutter, Apache: production Arabic motorcycle e-commerce ecosystem with customized checkout, payments, shipping, analytics, data migration, and responsive RTL UX.

ILM RoadBiker | ilm-roadbiker.com | OpenCart, PHP, MySQL: dedicated Arabic e-commerce storefront for ILM helmets and riding gear with responsive Arabic commerce flows.

CertifiedSkill | get-certified-3x6j.vercel.app | Next.js, Tailwind CSS, MongoDB: certification platform with database-backed workflows, online exams, and server-side assessment controls.

EzTrak | eztrak.vercel.app | React, micro-frontend, .NET: enterprise oil-refinery workflow and asset-tracking interface demonstrating complex operational UI and integrations.

Plantin | plantin-pink.vercel.app | Next.js, Tailwind CSS, MongoDB: plant information application with database-driven care guidance and disease-identification workflows.

EDUCATION & CERTIFICATIONS

Faculty of Science (FSc), Biology | Government Higher Secondary School, Khanewal, Pakistan | 2019 - 2021

Certifications: Six-Month Full-Stack Web Development Course; JavaScript Intermediate (Sololearn); React.js (upGrad); Python (Sololearn); Basics of Quantum Information (IBM)
